RE: LOUIS TOFARI

Ref: Recommendation Ltr

SPS recently worked on a major project, for many months, @ St. Peregrines in Ohio. SPS' scope was to follow Louis' detailed dwgs to install the porcelain tile in the Nave and Sanctuary walls. Additionally, we installed natural stone frames for the Stations, Altar(s) and large Frames around the Evangelists at his direction and guidance.

The interior design and build-out of the Shrine was very intricate and detailed. We had to place the exact tiles, and their widths/heights on a circular curved wall. He wanted to replicate the Roman basilicas of the 4th century.

Louis was on point in every detail and instructed our men to make mockups and follow those mockups to a tee. He was in constant communication to ensure that his vision, and the church, would come true.

Additionally, Louis is a very diligent worker and Task Master.

To that end we would recommend Louis Tofari and Romanitas Press to design and execute the interior details in any religious setting.

Pls feel free to call me about the above – 330.283.4267
